

Thank you for continuing to support the environment throughout this very difficult year. Together we are working to shape a new future for us, and the generations who will come after us.

Your ongoing support is the key to overcoming environmental challenges. Over the past year, we successfully urged the Environmental Protection Department to **tighten plastic waste traffic**; we **connected over 140,000 people to sustain a vocal 'Save the Lantau' campaign**; and with over 24,000 petition signers calling for #plasticfreesupermarket, **AS Watsons has committed a series of plastic reduction measures to be achieved by 2030**. People Power rocks!

Climate crisis knows no borders, that's why our offices in East Asia and around the globe work closely to advocate policy changes. From the **100% carbon neutrality commitments of China, Japan and Korea**, the **creation of a 4,500km<sup>2</sup> ocean sanctuary for Antarctic Penguins**, to the **break-up between local supermarkets and Amazon slaughterhouses JBS**. These achievements are only possible with your generous donations which ensure our independence of any government and corporation intervention.

The climate emergency remains our top campaigning priority. With your support we will also continue to work on local food & biodiversity campaigns; working towards a plastic-free community; creating a Global Ocean Treaty, and Save the Arctic projects.

Let's weather the storm together and bring positive changes through action!

*Cristina San Vicente*

Deputy Executive Director  
Greenpeace East Asia

#### Plastic-free Community is Growing!

24K signers' effort is paying off with a supermarket giant adding plastic-reduction measures. Our plastic-free community will charge on.

## DONATION RECEIPT

For the fiscal year ended 31 March 2021

Received from

Receipt No.:

Receipt Date:

Total Donation Amount: HK\$

Donor ref. :

Apr' 20	\$	May' 20	\$	Jun' 20	\$
Jul' 20	\$	Aug' 20	\$	Sep' 20	\$
Oct' 20	\$	Nov' 20	\$	Dec' 20	\$
Jan' 21	\$	Feb' 21	\$	Mar' 21	\$

## THANK YOU!

This is a computer print out, no signature or stamp is required.

## Rise up to the climate emergency

Vicious extreme weather events have issued dire warnings and some countries are listening: Denmark is cancelling new oil and gas permits in the North Sea and ending existing production by 2050, East Asia powers are keeping pace with 100% carbon neutrality by 2050 (Japan, Korea) & 2060 (China) respectively.

## Responsibilities held for damage to the oceans

Our ship crews and investigators are always geared up for breaking incidents and months-long expeditions to promote solutions. We tracked down the oil spill in Taymyr Peninsula and the polluter has to pay 146 billion rubles, the largest compensation for environmental damage in the history of Russia. After reaching an agreement with the krill fishing industry back to the 2018 ship tour, we also took one step forward to protect the Antarctic!

*Positive Change through Action.*

## Independence enables us to be unbiased

Our independence is vital for us to be effective in our campaigning work, which is why we have it as a core principle that guides all of our fundraising. We do not accept funding from governments, corporations, political parties or intergovernmental organisations, which is why **your donations matter a lot and we must say a BIG thank you** on behalf of our planet Earth!
